GREENDEE ROPER PANOGALON

Full Stack Developer

About Me

I am a MERN stack developer currently focused on mastering advanced programming concepts such as modern architecture, clean code structure, GraphQL, secure API design, and scalable database systems. I am passionate about building high-quality, maintainable web solutions and continuously studying the best engineering practices.

- React Js/Ts
- Node Js
- Express Js
- Php
- Laravel
- Vue Js
- Tailwind
- SASS
- Bootstrap
- Flutter
- Dart
- Python
- MongoDB
- MySQL

EXPERIENCE

Full Stack Developer/Freelance Projects
2023 - 2025

I worked on capstone systems with other students, helping them build web applications that are both useful and good-looking for their school projects. I created websites and systems to support them, make their tasks easier, and improve their presentations.

Virtual Assistant/Part-Time Job
March - June 2023

I am a virtual assistant specializing in updating content on WordPress sites. With expertise in WordPress content management, I help clients keep their websites fresh and current. I assist with adding, modifying, and organizing text, images, and documents.

Portrait Maker & Barber/Sideline
2021 - 2023

I worked as a portrait maker and part-time barber before entering programming. I created hand-drawn portraits for clients and also provided haircutting services in my community.

EDUCATION

Davao del Norte State College
Bachelor of Science in Information Technology
Graduated in 2025 | Developed strong expertise in full stack development, project management, and modern web technologies.
